

STEP 100

Experience the new escalator deep cleaning machine JUMA Step 100.

Features and Benefits:

- Compact cleaning machine that cleans steps and risers of a escalator simultaneously in situ
- The visible escalator steps can be cleaned easily, comfortable, fast, efficient and free of residues
- There is no need to remove the steps for cleaning
- Low water and chemical use
- High user comfort through given cleaningprograms
- Transport and cleaning can be done by a single person
- The escalator is ready for use directly after the cleaning process
